Entry system for cables with and without connectors

- Multiple configurations in the same frame
- Frame screws in AISI304 Stainless Steel
- Overmolded gasket for full UL94V0 system with grey or black grommets
- Strain relief according to EN 62444
- Sturdy construction IK10
- ► IP66 and Nema 4X certified with all configurations of grommets
- ATEX version on request (see sec. 7)
- Threaded inserts version on request

EN 45545-2

The overmolded gasket guarantees faster installation times and the complete V0 self-estinguishing of the system.

Technical data

Material: PP+GF

Flammability: self-extinguishing acc. to UL94-V0

Temperature: -40°C... +155°C (static) **Features:** halogens and silicones free

Dimensions [mm]

The DES 16 cable entry system consists of a splittable frame designed to accommodate small (SPP), multiple (X) or large (SPG) grommets for cables with and without connectors. The grommets can be freely positioned into the frame.

With all combinations of grommets, single, double, quadruple, big, the IP66 and Nema 4X are secured.

The overmolded gasket guarantees faster installation times and the complete V0 self-estinguishing of the system.

The 90° cable entry system DES24-90 is used when the machinery construction does not allow the straight cables entrance, or when a nice design is requested.

This cable entry system is suitable for both cables with or without connectors and corrugated conduits, or a mix of them. The grommets can be freely accommodated into the frame.

The DES 24MX splittable frames family is a modular solution for installations where a big quantity of cables need to be routed through electrical cabinets walls or machines.

This solution is not only modular but it is also a general solution that can be adopted as main cables entrance. Both cables with or without connector can be routed (40 for each module) and future updates can easily be organized in the cheapest and fastest way.

The DES 24 CLICK splittable frame allows to accomodate up to 40 cables with or without connectors with diameters from 2 to 32 mm.

The frame closing is made through two side hooks. Despite the absence of screws, the mechanical seal on the cable is perfect.

The frame accepts 10 small grommets or 1 big grommet and 6 small grommets.

The DES FLAP solution enables the DES 24, 16, 10 and Q frames to be installed with a quick snap-in connection.

The FLAP frame, once installed, hooks over the split frame and is the best solution for a flexible installation. Enclosures can be later inspected quickly and easily be dismantled.
